Review of Parliament

(By Thomas Whyling)

Ottawa, May 13—Agriculture and War Veterans were chiefly in the Parliamentary limelight of late. The debates on the former have been political but on the latter entirely non-partisan.

Two bills were presented to the House dealing with matters of direct interest to ex-service men: The reviving the real iden of Armistice Day by separating it from Thanksgiving and making it Remembrance Day and the other a bill to eliminate Imperial Veterans from the Soldiers' preference under the Civil Service Act.

Both of these bills emanated from private members and both were accorded independent consideration, being supported and opposed on both sides of the House in accordance with individual member's beliefs. The party whips were off. A. W. Neill (Lib. Comox-Alberni) presented the Remembrance Day Bill which passed and Oscar Boulanger (Lib. Bellechasse) sponsored the Veterans' preference bill.

At first the House looked askance at the Remembrance Day bill and the debate was adjourned on its first day. The Canadian Legion however made known the wishes of the war veterans and the bill was thereupon passed. In the case of the Imperial preference bill the debate was adjourned, but from all indications it will be defeated when it comes to the final decision.

The agricultural question involved the government's policy with respect to the present depression, (or as the Opposition would have it) lack of policy. The issue was joined when J. L. Brown, (Lib. Lisgar) dealt with former statements by Mr. Bennett that conditions in the West were not as bad as farmer members on the Opposition side were painting them. Mr. Brown quoted extensively from western farmer authorities particularly one which stated that during the past winter the United Farmers of Canada (Saskatchewan) had sent relief to 670 families, the Wheat Pool to 359 families, and the Red Cross to 2,609 families, irrespective of cases dealt with by the Red Cross, the Canadian Legion, the Churches, the Jewish communities and other organizations. I would have read more but the Deputy Speaker, Armand Lavergne, (Con. Montmagny) ruled him out of order for reading from newspapers.

The Prime Minister rose to reply. The subject is of such great importance that it is worth while quoting Mr. Bennett verbatim:—

"In Woodstock, N. B. I said 'The collective weight of the resources of the government would be put behind agriculture.' I ask hon. members to name any government which has saved a situation by deliberate effort at this one has in view of the condition of the wheat market. What would the price of wheat have been in this country had it not been for the action of the government."

"What has it done?" asked a member.

Mr. Bennett: "Ask any thoughtful man about it."

A member: "Tell us what you did." Mr. Bennett: "I tried to indicate the other day that it is very much better that these things should speak for themselves. We put the collective credit of this country behind the wheat market."

A member: "It was the banks you saved."

Mr. Bennett: "I appeal to the Canadian people to judge whether anything could better illustrate the line of thought indulged in by some Hon. members than the observations which we have just listened to."

A member: "God help the farmer anyway."

Mr. Bennett: "Could anything be more calculated to bring—shall I say—despair on the part of those farmers who are struggling with adversity than this counsel of desperation to which we have been listening?"

The Prime Minister went on to say that the government's action had enabled the banks to support the market by continuing to advance money; otherwise wheat would have dropped

News Notes

Mrs. Reg. W. Cooper was in Cardston over the week-end, visiting with her sister, Mrs. Wm. Cooper. She returned home Monday morning.

From 80 to 100 men joined in a search over the week-end for the body of Fred Lumby, Welling Elevator Agent who disappeared two weeks ago, but their work was of no avail, and his disappearance remains an unsolved mystery.

EXPERT OPTICAL SERVICES

MR. A. MELVILLE ANDERSON OPTOMETRIST, OF ANDERSON AND MCLEAN, SIGHT SPECIALIST, CALGARY WISHES TO ANNOUNCE HIS REGULAR VISIT TO RAYMOND PHARMACY, THURSDAY, JUNE 4th, EYES EXAMINED GLASSES FITTED.

At 40 cents. He reminded Mr. Brown that wheat many years before had been only 50 cents. "Yes," replied the veteran farmer "but overall were only 75 cents then; now they are \$3." There was no other information concerning however as to how the government had helped agriculture or what was to be done in the future.

There was a discussion in parliament on the establishment of a system of state medicine. This proposal was made by Dr. J. P. Howden (Lib. St. Boniface) but was frowned upon by the Prime Minister and supported by Alfred Speckman, (U.P.A. Red Deer) advocated the establishment of a National Council of Social and Economic Research, so that scientists and economists could tackle the economic problem of recurrent industrial depressions. He claimed several other countries had established commissions along this line.

Unemployment insurance, which periodically is advocated in all parliaments, came up in the House on May 13. There was virtually unanimous opinion opposed to contributory insurance, but general approval of a scheme of contributory insurance such as has been discussed in former sessions. The former plan would put the entire cost on the government, while the contributory system calls for participation by the state, the employer and the employee. It is expected that some scheme will be ultimately evolved, but there is delay because the government desires to await the fund of information for the forthcoming census will give and to investigate the matter more thoroughly.

The right of Free Speech has been a bone of contention, a bill being brought in to amend the Criminal Code by a clause intended to safeguard and insure that the nature and general character of speeches in public affairs must be ground for regarding any meeting as unlawful and not merely the arbitrary decision of some police chief or similar authority.

The chief complaint was against the police authorities of Toronto who have taken a very arbitrary attitude in the matter. During the election campaign last year a number of people of radical tendencies aroused the antagonism of the police and were refused the right to hold meetings. Irrespective of one's personal opinions, any Canadian has the British Right of free speech and in a parliamentary election certainly cannot be interfered with by local authorities unless endangering the public peace. In this case, the Chief Electoral Officer at Ottawa had to step in and warn the Toronto police they were going too far and threaten to report the matter to parliament. After all, parliament is the supreme body in Canada, and all other authority is subject to it.

The new members of parliament and their families had an opportunity to experience the social amenities of the Capitol recently, there being a reception at Government House, a reception and state dinner to H.H.M. Prince Takamatsu, brother of the Emperor of Japan.

Clinic Very Successful

The yearly baby and pre-school age clinic held under the direction of the Women's Institute was well patronized by the young mothers of Raymond.

Miss E. Jones P.H.N. was in charge assisted by Nurse Elves, from the Dept. of Health.

Miss Jones commented on the unusually healthy condition of the well developed babies and many expressions of appreciation from the mothers for this valuable service was heard. Each mother was given a diet chart and a copy of the revised edition of the Alberta Mothers book.

The detailed report signed by Miss Jones follows:

No. of children examined	114
Babies	40
Pre-school age children	74
BABIES	
No defects whatever	28
Malnutrition	7
Delayed teething	3
Enlarged cervical glands	3
Suspect adenoids	2
Suspect defective tonsils	1
Requiring circumcision	2
Skin condition	2
Hernia	1
Other defects	1
PRE-SCHOOL AGE CHILDREN	
No defects whatever	26
Malnutrition	11
Defective teeth	25
Enlarged cervical glands	16
Suspect adenoids	3
Skin condition	1

Fres. E. J. Wood, and B. F. Lamb of Carleton will be the speakers in the Raymond First Ward next Sunday evening. Temple Work and Genealogy will be their subjects, and the Genealogical Committee have charge of this program would appreciate a good attendance of Raymond First Ward members.

A 40 foot steel flag pole was put up on the Town Hall corner Thursday

Apostle O.F. Whitney Pneumonia Victim

Apostle Orson F. Whitney, a member of the Quorum of the Twelve Apostles of the L.D.S. Church, passed away in Salt Lake City on Saturday last in his 76th year, death being due to pneumonia and heart failure. He had been ill for about four weeks.

A man of large stature and loving disposition, Elder Whitney was a friend to everyone and highly esteemed wherever he was known. A writer of great ability, a speaker with a very forceful appeal, and a Latter-Day Saint through and through, his was a life of continual service in the ministry, and his loss will be keenly felt in the Church both at home and abroad.

The funeral services were held Sunday in the Salt Lake Tabernacle, President Heber J. Grant, Anthony W. Ivins and Charles W. Nibley of the First Presidency were speakers; also President Rudger Clawson and Elder David O. McKay of the Council of the Twelve.

Duncan McAlister, Salt Lake Temple Recorder, and a man of long experience in Temple Record keeping, passed away in Salt Lake last week. He was a native of Scotland and was 80 years of age, and had spent a long and busy life in missionary work in the Church since joining it.

morning. C. B. Strong made the concrete base for it and Wm. Phin made the pole, and ready hands helped put it in place.

According to reports about 5 per cent of the beet crop is lost through wind whipping and sand blow. The remainder are looking good, but more rain is needed to take the surface moisture down to the sub-soil moisture.

Thumb Skelches By Cy

Slogans

A SLOGAN, according to Cassell's dictionary, was or is "the war cry or gathering cry of one of the old Highland Clans." Of course, like many other words, its application has broadened considerably. H. W. Fowler, in his Dictionary of Modern English Usage, says of this winning process, "though the great vogue of the word as a substitute for the older 'motto,' 'watchword,' 'rule,' etc., is of the 20th Century type, and we old fogies regard it with patriotic dislike as a Scotch interloper, it was occasionally so used earlier."

Well, Mr. Fowler and the rest of us old fogies, I'm afraid will have to grin and bear it so far as modern usage of a great many things are concerned. We don't like to see a woman sm—, but that's getting away from the subject and we'd better leave that for another time.

It's a great thing to have a slogan, and it's still a greater thing to choose one that is appropriate to the purpose for which it is to be used, but it's a much greater accomplishment to live up strictly to the spirit of the slogan after we adopt it.

While in a Canadian city recently I thought it best to purchase an extra pair of socks. Seeing the slogan "small profits and quick returns" over the door of a small shop, I went in. I came out with the socks and a cash surplus reduced by 89c. A little farther down the street I noticed a window full of socks marked 59c. An examination disclosed the fact that these were the same weight, made of the same material and bore the same manufacturer's label as those for which I paid 89c.

The World's Grain Exhibition and Conference steered clear of most of the rocks in choosing a slogan by letting the job by tender. Over 18,000 bids were made and these came from all parts of the world. No wonder because there was a nice cheque of \$500 for the successful bidder. A. P. Stretton submitted the best bid. He comes from Calgary, Alberta, and Mrs. Stretton hails from North Carolina. Take a look at them. "Show what you grow and share what you know," is the slogan submitted by Mr. Stretton. It's appropriate to an exhibition and conference, don't you think? Better still, agricultural men, and women, too, everywhere, are living up to it.

It's a great old world, though, just the same, this good old world of ours, because in it

ONE swallow doesn't a summer make,
Nor two, nor three, nor four;
ONE store can't make a city tough;
It takes a whole lot more.
The body prize doesn't make a boob;
Nor ONE drop a sousing rain;
Nor does ONE slip in morals cause
A black, fast color stain.

Provincial Crop Report

LARGE CROWD SEES "KING OF JAZZ"

The Capitol Theatre was packed full on Wednesday night when the all "Technicolor" production "King of Jazz" was shown. The prices may have been largely the cause, but the house was packed anyway and every one seemed to enjoy the offering from beginning to end.

For music lovers especially the film has a strong appeal, and Paul White-man and his band are surely a collection of outstanding artists. The comedy side was not forgotten either and everyone had a number of good hearty laughs. Elaborate costuming and stage settings, and beautiful color photography made the offering decidedly enjoyable and the genial Manager, Mr. Brewerton, is certainly to be complimented on the splendid type of pictures shown.

NEW ROOF ON LOCAL TELEPHONE EXCHANGE

Carpenters have been busy this week remodelling the roof of the local Telephone Office. The flat roof has been taken off and a bungalow roof with a good pitch put on, and will be covered with asphalt shingles. The local staff hopes now that the days of leaking roofs are over.

Mr. Carter of Edmonton has the contract and several local men are at work on the job and good headway is being made.

BEE-HIVE SWARM DAY

The Swarm Day of the Tayo's State Bee-Hive Girls will be held in Magrath on Friday, May 29th at 1 o'clock in the afternoon.

All Bee-Hive Girls with their mothers, also Officers of the M.I.A. and Bishops are cordially invited. There will be an interesting program, games and luncheon. Remember the date.

MRS. EDWARDS VIS TS RAYMOND

Mrs. O. C. Edwards of Macleod addressed the W. I. May 14th on Recent legislation before the Dominion House—To have the author present after studying her two books—"Legal Status of Women of the Dominion" and "Legal Status of Women of Alberta" was a rare treat and greatly enjoyed by the members.

Mrs. Edwards was banqueted by the W. I. officers, Mrs. C. W. Lamb acting as hostess, beside the guest of honor other out of town guests were Mrs. W. D. Campbell Pres of the Great Council of Women's Lethbridge and Miss E. Jones and Miss Elves Edmonton.

COMPLETE GRAVELLING OF YELLOW TRAIL BY JULY 1 IS EXPECTATION

BUS SERVICE WILL START ON NEW ROUTE ON JUNE 1 IS ANNOUNCEMENT

Bus service on the direct line between Lethbridge and Cardston via the Yellow Trail is expected to start on June 1, according to an announcement made on Friday by B. B. Fay, manager of the Greyhound bus line.

Grading of the Yellow Trail is expected to be completed by that time, said Mr. Fay, who had just completed a survey of the road. Grading is now completed to Magrath and rapid progress is being made north through Welling.

The bus will leave Cardston in the morning, returning in the evening leaving Lethbridge about six o'clock. Expectations are that the highway will be gravelled by July 1, when it will become one of the main secondary highways of Southern Alberta to be maintained by the government.

Sugar City municipality is planning to gravel the five miles from Raymond to Welling to connect up with the new road, and the buses will make Raymond a regular part of coil.—Lethbridge Herald.

SECOND FORTNIGHTLY CROP REPORT

Issued by the Department of Agriculture, Province of Alberta

Widely varying temperatures and showers featured the weather of the past fortnight. On May 6, the western part of the province received moisture which will assure a fairly even germination of grains and will materially improve pasture conditions. Unfortunately this rain did not extend to the southeastern areas where very dry conditions continue. The Peace River district, which had a fair carry-over of moisture from the previous year, received an additional supply on May 13, and excellent conditions prevail in that part of the province.

In those parts of the province where there is a fair moisture supply seeding of wheat is completed and about 50 per cent of the area devoted to coarse grains is sown. In other districts seeding was delayed awaiting additional moisture and reports indicate that from 80 to 90 per cent of wheat and 40 per cent of coarse grains is sown.

The damage to crops from soil drifting is not as serious as might be expected. The period of most severe blowing occurred before seeding commenced.

The sugar beet crop is 90 p.c. seeded and progressing favorably in the Lethbridge district. Further west the moisture supply is more limited and the stand is uneven. The acreage devoted to this crop for the present season is 12,500 acres, a decrease of about 1,500 acres from last year.

Reports vary with regard to the probable acreage of wheat but it is generally conceded that there will be a corresponding increase in the area summer-fallowed. More definite information with regard to this matter will be secured by the Department in the near future. Weather conditions during the next few weeks will determine the area of coarse grains and green feed. Continued dry weather will tend to decrease the area sown. Particularly in the southern part of the province and in the irrigated districts, there is an increase in the acreage of peas, potatoes and similar crops.

Pasture conditions with the exception of Northern Alberta and the Peace River district are unsatisfactory. There has not been sufficient moisture to cause growth and some damage from soil drifting has occurred. In some parts of the dry area a stable-feeding of livestock continues and feed shortage is being noticed. Live stock are reported to be in satisfactory condition where pasture is available. In the dry areas there is not only shortage of pasture but water shortage is in some instances becoming acute.

News Notes

The Raymond Mercantile are fixing up their basement floor this week.

Mayor Meeks purchased a new Ford Coupe from King Motors on Thursday of this week.

The Karaden Kids report a very successful dance in Lethbridge on Wednesday night where they played.

Geo. W. Green, Sr. and son Arthur of Lethbridge were in Raymond on Tuesday of this week.

J. Orvin Hleken is the new member of the First Ward Sunday School Superintendency in place of W. A. Keith, who has moved to the Second Ward.

The Tinware Special at the Mercantile Saturday was very well patronized and many farm homes should now be much better off for pots.

100,000 Textile Workers went on strike Monday in France because their salaries were cut 3 to 4 per cent. Another army added to the unemployed of the world.

A BOND FOR A BOND

The Dominion Loan of 1931 of the Dominion Government makes an appeal to Canadian thrift by providing an opportunity to holders of maturing bonds to continue to the benefits they have enjoyed as holders of Canada's premier security. They may enjoy the war-time interest rate and other privileges of the bonds they are holding until expiration and at the same time may extend the period of their secure investment for a period of fifteen to twenty-five years on the basis of yields now prevailing. Yields which are constantly, if slowly, growing smaller and are almost certain to continue to do so; at least this is the opinion of those who are closely in touch with financial conditions and who are in a position to forecast investment trends of the next few years.

This renewal operation does not involve the raising of any additional money and therefore has no effect whatever upon the Dominion's obligations. Those uncertainties which may have been felt during the period of the world war have long since passed and even the doubts about the return of national prosperity are being dissipated as various economic factors indicate not only that the bottom of the depression has been reached, but that a sound foundation is being laid for constructive development, even though the recovery may be gradual.

Any study of the price records over the years of British Consols or the securities of other representative Governments, if related to the present trend of commodity prices and other developments of economic significance leads inevitably to the conclusion that the market for bonds of the highest grade will continue to rise for a period extending considerably beyond the issues involved in this refunding operation.

There is no other logical conclusion from all the circumstances than that the Government in its program to take care of the refunding of heavy obligations created during war-times at a time when conditions do not permit of repayment out of revenues, is safeguarding the national interest and at the same time providing the Canadian people with an opportunity to continue an investment which has proven its real worth during a period of unusual stress.

The investor who has held a Dominion of Canada bond can do no better than to continue to hold a Dominion of Canada bond.

BIRTH CONTROL

A startling situation confronts the people of this country. It is the rapid decrease in the birthrate. That families are smaller than they used to be is apparent to everybody, but that the rate of birth had decreased more than half, from forty per thousand to less than nineteen, is shocking.

It is estimated by statisticians that within the next thirty, perhaps twenty years the population of this country will have become stationary. Immigration will by then have ceased to be a serious factor, and births and deaths will have reached a balance.

The economic consequences of such a state will be important. Real estate values will cease to make any average increase. No new school buildings will be needed except for replacement. Cities will not grow except as people move from the country or other cities. There will be fewer young people and more aged ones. Society will be static in numbers and will naturally tend to grow static in other ways.

Birth control is of course responsible for the new situation. One of its serious phases is that it is practiced by the well-to-do and most fit intellectually. The colored races have little knowledge of it. As science conquers yellow fever, hook-worm, malaria and other destructive influences in the lives of inferior races, we may see them increase as the superior races decline.

What is the cause of it all? Higher standard of living are perhaps the most apparent. The ordinary family cannot have many children and many luxuries. But the rich do not have the same motive. With them it is a shrinkage from responsibility, from pain from division of their property into many parts, from sacrificing social activities.

Against all this humanity faces two commands. One is the original of God to multiply and replenish the earth. The other is the all pervading law of procreation, nature's inexorable command.

Many young people marry now with the purpose of deferring birth of children for some years and then limiting it to a convenient one, two or three. We believe this is fraught with danger not only to civilization but to their own happiness.

What is more beautiful than a family of children growing up about young parents? What creates more ambition, more character more industry, more understanding of the necessity of struggle and self sacrifice in both children and parents? Is there a greater joy than to look back on life when age comes and see a numerous and honorable posterity?

Some day we will recognize that we have been terribly wrong about wealth. We actually associate it necessarily with happiness. It is a mere incident. Perhaps it is as often an enemy as a friend. Character is the basis of happiness, and character develops best where parents have had courage and aspiration enough to make the family large and where children grow up knowing the hardships and realities of life and learning the great principle of sharing and helpfulness.

Here in Utah at least, let us not permit our population to grow stationary. That would not be good for man nor pleasing to God.—Deseret News.

S. T. Lang, Jeweler of Cardston was in Raymond on Monday of this week.

Neighbor Jones: "That's a terrible bunch of dandelions you have in your front yard, Smith."

Smith: "Those are not dandelions you fool. That's a new lawn grass with a pretty yellow blossom."

John A. Mooney

BRINGING to bear upon the affairs of the World's Grain Exhibition and Conference a long agricultural experience, John A. Mooney is the managing director of this coming event to be held at Regina in 1932.

Mr. Mooney was born in Quebec Province and after leaving public school made his entry into the world of commerce by accepting employment in a sawmill. In 1895 he entered the Ontario Agricultural College and four years later, heeding the call of the West, secured a homestead at Dauphin, Manitoba. He soon had 700 acres of heavy scrub land under cultivation.

In spare time Mr. Mooney devoted his energies to the study of agricultural matters and soon became recognized as a competent judge at seed fairs. In 1906 he travelled Western Canada on a "good seed" train under the auspices of the Federal Department of Agriculture, and in 1908 moved to the Regina district, where he operated a 480 acre farm.

Mr. Mooney established the Mooney Seed Company, distributors of good seed. He is closely associated with the Canadian Seed Growers' Association and with other producers' organizations.

DEAN LAMB — RAYMOND

Jack Lawne, 30, of Boise Idaho was killed at Payette recently when starting his plane before a huge crowd of spectators

Those who have War Loans or Victory Bonds should read the article and also the ad. of the Dominion of Canada this week in regard to Conversion of these loans. Reports say that these new loans are being taken very rapidly in the east.

Farmer Cornstace: "Gosh a-hem! look things is dry. I wish it would rain for a hul week, anyhow."

Farmer Hay: "Yeah. If it rained steady for two days you'd be a'ke 'cause we was going to get flooded out."

The tiny Heath monoplane built by Byron Wall and D. Al Mendenhall is now in Lethbridge and is being tested out in numerous flights. Last Sunday Joe Patton was flying it when the motor heated some and the pilot thought it wise to land. Spectators seeing the plane come down and fearing a crash rushed to the spot to find everything O. K. and the plane was lifted over the fence by a couple of men and put back in the hangar.

To the Holders of WAR LOAN AND VICTORY BONDS

A Statement by the Minister of Finance

»»

IN THE dark days of the War, Canadians loaned to the Government of the Dominion many hundred millions of dollars to enable the operations of the Allies to be carried to a successful conclusion.

When Canadians loaned their money to the Government, they received bonds which were promises to repay them the sum loaned with interest at the rate of 5% or 5½% per annum. On the 1st of October next, \$53,000,000 of these bonds become due; on the 1st of November, 1932, the maturity will be \$73,000,000; on the 1st of November, 1933, \$446,000,000; and, in 1934, \$511,000,000 must be provided for.

It would not be prudent, either in the interest of the security holders or the country itself, to wait until these loans become due before providing for their payment or conversion. Action must be taken well in advance of the due dates to protect the credit of the country. The Government believes this an opportune time to afford Canadians the opportunity to exchange the bonds, which they own maturing in the next few years, for new bonds of the Dominion of Canada carrying interest at the rate of 4½% per annum, which is a very attractive return. Prior to the maturity date of the present bonds, those who accept this offer will, of course, continue to be paid interest at the rate as provided by the bonds they exchange.

Canadians who have always shown confidence in their country are earnestly invited to exchange the bonds they now own for bonds of the new issue. By so doing, they will render less difficult the task of providing for the future finances of the country, will enhance its credit and will greatly assist the Government in the present period of worldwide readjustments.

No money will be asked for and no new bonds will be sold at this time. It is proposed to limit the present conversion to \$250,000,000, but the Government has the right at its discretion to increase the amount if Canadians indicate a general desire to continue their investments in the securities of their Dominion. The subscription books will close on the 23rd of May.

I earnestly seek the active support of my fellow Canadians in making this conversion, which is one of the largest financial operations our country has undertaken in recent years, creditable alike to Canada and its citizens.

R. B. Bennett
Minister of Finance.

Health Service

OF THE
Canadian Medical Association

Edited by
GRANT FLEMING, M.D., ASSOCIATE SECRETARY

WHAT TO EAT

Individual enthusiasts are very often a serious menace to those who follow their misguided teachings. Enthusiasts, even we may fairly call them cranks, are in most cases sincere. Because of their sincerity and their enthusiasm, they are convincing, and this accounts, no doubt for the extensive following which many of them have.

The enthusiasts on the subject of some particular food or diet are generally persons who are sure that some one food or combination of foods will benefit the human race. They overlook the fact that what may be of help to one individual may not be good for all. The experience on which they base their conclusions is

so limited that their contentions do not stand when generally applied.

The body requires a number of substances which must be secured in the food we eat if the body is to be kept in a state of health.

When we come to consider what we should eat in order to secure a sufficient quantity of all the substances which we require we think of all the foods used, not merely this one or that one.

Much of what is written or said concerning the value of one particular food is based upon the idea that we are to use or depend upon one or at the most a very few articles of diet. This is wrong. The diet of the normal, healthy adult should include the use of a wide variety of foods. Fortunately for us and thanks to

science which has given us rapid transportation and discovered safe and satisfactory methods for the preservation of foods, we are able to have a wide variety of foods the year round.

Not many years ago scurvy was prevalent during the winter months. We do not suffer from this disease nowadays, because we can have fresh or canned green vegetables and fresh or dried fruits at any season of the year.

The increased use of milk and milk products of green leafy vegetables and fruits, and of cuts of meat which were previously not eaten such as liver, constitutes a move in the right direction.

The normal, healthy adult would be well advised not to follow the food faddist. Because one man does well on some unusual diet this does not mean that it is suitable for another. Because some roughage in the diet is required it does not follow that a larger amount is desirable; indeed it may be harmful.

The normal healthy adult should eat a wide variety of foods. Milk and milk products, fruits and green leafy vegetables should form a regular part of the diet. The amount of food to be used depends upon age and occupation and can be regulated by watching any variation in the weight.

Hi School Jottings

CAMPUS CAPERS

Grade XII finally went on their Biology trip last Wednesday. They travelled by horseback and many interesting specimens were captured and examined. The whole class agreed that Mirza and Murray caught the best specimen about 10 o'clock at night (somewhere near Magrath.)

A number of the boys were in Magrath last Friday afternoon to attend the Annual Track Meet. Some good records were established at the meet and many promising athletes are shaping up in the Junior and Juvenile class.

Butler Naider was the first one to go in swimming last Thursday. Roy Woolley and James Meeks helped him greatly. Walt Webster was the main push in the show. The swimming pool was the irrigation ditch in front of the school, for further information apply But Naider.

ITEMS OF INTEREST

Vivian Card corresponding with someone in Magrath Monday morning.

Delman O'Brien studying "Rope's Knots and Hitches."

Dean Wall telling how much nerve Ken Hague had, this was the trend of the conversation:

Ken—"May I borrow your pen?"

Dean—"Sure thing."

Ken—"Have you some writing paper?"

Dean—"Yeah."

Ken—"Where's your ink?"

Dean—"In my desk."

Ken—"Are you going past the Post Office?"

Dean—"Uh huh."

Ken—"Would you mind waiting till I finish this letter?"

Dean—"No."

Ken—"Have you a stamp handy?"

Dean—"Here's one."

Ken—"What's your girl's address?"

Jack, (after regaining consciousness, "I had the right of way didn't I?"

Bruce, looking over the remains—"Yes, but he had a four ton truck."

IN GRADE XII

Prof. Redd offering to bet Francis five cents that he is right on a certain trigonometry formulae.

Boothe making constant non-stop flights to the fountain and back in his study periods.

A'tan telling Merrill and Gray his mischievous acts while attending school in Magrath years ago.

Be'vee it or not (apologies to Ripley) Deral going through one (1) study period without sitting beside Martha.

Francis getting into just one fiery argument with Mr. Low on Monday.

Gray and Murray coming prepared with their memorizing.

Bruce Galbraith has received a rather severe injury in his hand, and it is feared it will prevent his participation at the Cardston meet on May 25. "Tough luck Bruce!"

Salt Lakers had the pleasure of seeing 66 planes flying in a demonstration of tactical flying, at that point Sunday or Monday. This is the greatest number of planes ever to take part in one flight at Salt Lake.

Interest is centering in the find of Oyster Shell near Hill Spring recently. The land has been covered by lease and it is the intention of those interested to develop it commercially. Tests conducted show the shell to contain 93.8 p.p.m. pure lime.

The new wing of the Galt Hospital at Lethbridge will be formally opened on June 19th. This institution is now reported as exceptional well provided and up-to-date in all departments.

Martial law was declared in Madrid, Spain, on Monday, following riots and clashes between Monarchists and Republicans. Four Catholics in the riots were burned, and numerous other anti-clerical demonstrations held.

According to fairly reliable information gleaned this week, the Alberta Pacific will commence very shortly to rebuild their elevator at Welling which was recently destroyed by fire. The fire was certainly a clean burn out, nothing remaining but a mass of twisted steel rods, a few wheels and the gas engine and stove that were in the office.

Thumb Skelches

Stunts

THERE is practically nothing unusual in the inclination of the human race to perform stunts. There is and always has been a sort of something to compensate the performer for the danger in doing so—a thrill as a consequence of the action, a pleasurable feeling resulting from the publicity which follows, enjoyment from the envy of others, or merely inability to resist a dare to do it—something; and, the greater the danger or the more unusual the deed the greater is the compensation.

Probably it was one of these reasons that prompted Lady Godiva to perform her famous ride in the all-together on a white mare's back through the streets of her native town, or Bill Tell to puncture with an arrow an apple while it reposed on the head of his son.

Speaking of apples reminds me of an incident of the early school days of old No. 7 Hibbert. But the story is best told in the words cooperatively put together by a couple of the boys who sat together at one of the old pine desks at the rear of that famous institution of learning. Here it is:

Did you see that big green apple that Punky Stewart stole from Milky Mandson's orchard, that orchard on the knoll? Well, Dusty Miller ate it—the peeling, core and all—The greatest stunt! We dared him. Poor Dusty had the gall, But the doctor couldn't save him. It twisted his tummy tight. So Dusty's in his coffin. They'll bury him tonight.

Here's another stunt worth mentioning. It came to light during the slogan contest conducted by the World's Grain Exhibition and Conference to be held at Regina in 1932. One of the 1,800 entries was written on a grain of wheat. It didn't win the \$500 prize, but it is certainly deserving of honourable mention. Accompanying this entry was another grain of wheat upon which the Lady's Prayer was plainly written and I am told by Ripley that the entrant has written 1,200 letters on a single grain.

The performing of this sort of stunt is not so dangerous as looting, the-loop or tail-spinning in an aeroplane, or driving an automobile over 200 miles an hour, or going over the Niagara Falls in a barrel. It's unusual just the same.

News Notes

Messrs. W. Palmer, Andy Newell, R. A. Snow were in Lethbridge on Saturday.

Elders Cleon Rolison and Robert Salmon were the speakers at the Raymond First Ward Sacrament meeting last Sunday evening. Their discourses were very interesting and timely.

An oil well is to be drilled at Twin River on the Melatyre Lease, and carpenters are busy building bunk houses, cook houses and other buildings necessary.

A practice ball game with New Dayton was scheduled for Wednesday night, but Jupiter Pluvius called the game off. No one doesn't mean Ray Woolf, either.

Don't forget that Monday is a Statutory Holiday and all stores and places of business will be closed. Quite a number of local people are planning on a trip to Waterton Park if the road and weather permit.

The Raymond Military Band added five new instruments to their instrumentation on Sunday last, and two of the boys bought new Trumpets as individual property. This business was transacted through the Assiniboia Music House of Lethbridge, and a member of that firm was here on Sunday to hand practice. The band is making good progress, and holds great promise for the coming fall and winter.

The steel work on the Internal Storage Elevator at Lethbridge was commenced on Monday of this week. The Dominion Bridge Co. have the contract.

While Raymond citizens were wiping the dust out of their eyes on Sunday, a young cyclone visited Edmonton blowing the roof off a rooming house and breaking the branches off trees. This was followed by half an inch of rain and the forest fires north of Edmonton were put out, and the situation saved.

A Wheat Conference is now in session in London with all the grain growing nations represented. The object is to find a solution to the great stocks of exportable wheat now held in the world. Their progress will be watched with a great deal of interest throughout the entire world, and especially by the great wheat producing countries, Argentine U.S.A. and Canada, particularly. G. Howard Ferguson, Canadian High Commissioner in London is Chairman of the Conference.

L. D. King and Gene Pierson were in Lethbridge on Friday of this week to get a new Ford.

El Evans bought a Ford one Ton Truck from King Motors on Wednesday of this week.

A welcome home party for Elder John O'Brien will be held in the High School, Wed., May 27, at 8 p.m.

Quite a number of local athletes will take part in the Track and Field Meet at Cardston next Monday.

Gardens and grain crops are looking much fresher after the storms of the present week, and while the precipitation was not very heavy it will certainly do an immense amount of good to growing crops of all kinds.

From present indications there will be a moving of a couple of hundreds of houses in Raymond in the near future. Watch the columns of the Recorder for details.

The bids are now out for Raymond's Big Dominion Day Celebration and Stampede. Get a look at the bill and then get a program and make up your mind to spend Dominion Day in Raymond this year. Invite your friends here.

Jacob Klassen, two-year old son of Mr. and Mrs. Herman Klassen of Coaldale, was drowned in the irrigation ditch near their home Tuesday afternoon last. His kiddie car was noticed on the bank of the ditch about three o'clock but no trace of the little tot. Searchers found the body about 7 p.m. about a mile farther down the canal from the scene of the accident.

Here and There

Total number of poultry on farms at end of 1930 in the Dominion was estimated at 60,795,000, of which 56,247,000 were hens and chickens. Value of this poultry was placed at \$54,852,000.

Radio is to be used to aid in forest fire protection in Northern Saskatchewan. The provincial forestry department has decided to establish a system of look-out towers equipped with short wave radio sending and receiving sets.

A catch of 244 salmon by three anglers in nine days has been reported recently from the Caim's River, New Brunswick, by G. W. Scott, of Keene, New Hampshire, who was one of the party, and himself netted 111 of the fish.

More United States branch factories are established in Canada than in any other country outside of the United States itself. At the beginning of last year over 500 such factories were in the Dominion, representing investments of \$540,590,000.

DOMINION OF CANADA 1931 CONVERSION LOAN

(Continued from last week)

free adjustment coupons for additional interest at the rate of 1 p.c. per annum, payable respectively, November 1, 1931; May 1, 1932; November 1, 1932; May 1, 1933 and November 1, 1933. The Conversion Loan Bonds maturing in 1933 will not be subject to redemption before November 1, 1948, but on or after that date they may be called at the option of the Government on any interest date on 60 days' notice, at 100 and accrued interest.

Holders of the Victory Loan 5 1/2 p.c. Bonds maturing 1st November 1931 are being offered the opportunity of the Dominion of Canada 1931 Conversion Loan maturing November 1, 1959, which will carry coupons entitling the owner to interest at the rate of 4 1/2 p.c. per annum, payable half-yearly May 1 and November 1 commencing May 1, 1931. In addition to the regular coupons these bonds will carry seven adjustment coupons further interest at the rate of 1 p.c. per annum, payable, respectively November 1, 1931; May 1, 1932; November 1, 1932; May 1, 1933; November 1, 1933; May 1, 1934, and November 1, 1934. The Conversion Loan Bonds due November 1, 1959 will not be redeemable before November 1, 1949, but after that date they may be redeemed by the Government on any interest date on 60 days' notice at 100 and accrued interest.

The issue of bonds of the 1931 Conversion Loan is authorized by Act of Parliament, which provides that both principal and interest on all of the bonds is to be a charge on the consolidated revenue fund of Canada.

Principal and interest on the new bonds will be payable without charge in lawful money of Canada at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, Saint John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria. Interest coupons will be payable without charge as they fall due at any branch in Canada of any of the Chartered Banks.

The Department of Finance announces that interim certificates in bearer form will be delivered in the first instance in exchange for all Victory Loan and Victory Bonds accepted for conversion. The interim certificates will be exchangeable at a later date for engraved definitive bonds. The Finance Department expects that the definitive bonds will be ready on or about the 15th of August 1931.

When the definitive bonds are ready it will be possible for holders to obtain delivery of coupon bonds in bearer form or of coupon bonds registrable as to principal. These bonds will be issued in denominations of \$100, \$500, and \$1,000. Fully registered bonds, on which the interest will be paid direct to the owner by Government cheque, will also be obtained in denominations of 500, \$1,000, \$5,000 and \$100,000.

Applications to convert bonds will be received and receipts issued by any branch in Canada of any Chartered Bank and by recognized Canadian Bond Dealers and Stock Brokers from whom application forms and copies of the prospectus containing complete details of the new bonds may be obtained. They will arrange for the conversion of bonds without expense to bond holders.

News Notes

Messdames O. H. Snow, Thos Allan and A. W. Kirkham were Lethbridge visitors on Saturday last.

A very nice program was rendered in the Raymond First Ward Sunday School last Sunday in honor of mother. Talks were given by Miss Orpha Vance and J. H. Blackmore, and musical numbers included three from the Kindergarten, a Violin Solo by Harold Laycock, and a vocal solo by Mrs. C. M. Fletcher, both of Lethbridge, also a musical reading by Miss Green of Lethbridge. Very nice booklets on Mother, were distributed at the close of the meeting.

Chas. "Speed" Holman, Daredevil flyer was instantly killed at the Omaha Air Races on Sunday when the plane he was flying crashed to the ground and rolled 200 feet before it stopped. The body was thrown 10 feet from the plane. No official verdict was given but it was thought that either his safety belt broke and he lost control of the plane, or a down current of air caught the ship and he was unable to right it. He started his aerial career as a wing walker and parachute jumper in 1920.

WORLD'S FIRST CENSUS WAS TAKEN BY CANADA

Ottawa, May 20; (Special to the Recorder)—The taking of a census in Canada this summer recalls the fact that it was in 1665 that the first modern census was taken in the world, and it was taken in Canada. It was the 18th century before Europe followed the lead of the Dominion of Canada and in 1790 the United States took its first census. The population of Canada in 1665 was 3,215 souls, in 1700 it had passed the 15,000 mark and in 1763 when Canada was ceded to Great Britain there were 10,000 people. The 19th century was begun with between 250,000 and 260,000 people and by 1901 there were 5,371,315 residents. In 1911 the figures were 7,206,643; in 1921 8,788,483 and today it is estimated the total figure will reach 10,500,000. In 1921 over one million were reported as not being able to speak the English language and it is expected the number has grown now.

These figures are of interest. 1608, population of Quebec, 60. 1641, resident population of Canada, 240.

1665 New France, 3,918. 1667 New France, 3,918. 1698 New France, 15,355. 1739 New France, 21,701. 1763 Canada, 69,810. 1784 Canada, 113,012.

1814 Upper Canada, Ontario, 95,000; Lower Canada (Quebec) 335,000.

The third racial group in Canada is now the Ukrainian, English and French being the first and second.

Raymond's Stampede, the big day of the year, Wednesday, July 1st.

Joseph Miebavich, 33 years old, a farmer in the Smoky Lake Area of Alberta, ran amuck about 8 a.m. Tuesday morning and shot his mother Mrs. Baska Miebavich, aged 70; his brother Steven, aged 45; and his brother's daughter Mary, aged 13. He then turned the gun on himself, according to reports, and wounded himself so badly that he is not expected to live. He was rushed to a hospital in Edmonton where physicians said he had a fighting chance for life if infection did not set in.
